Emily,
Can you please log this in as a FOIA so that we can track and bill it. Requestor is Marnin Feldman. Phone number etc. below in signature block.

Pat,
This FOIA comes to me. Title is "2497 Adie Road" or "Chevron-Maryland Heights"

I am having trouble finding the exact documents on your list. We have documents from that time period, and some info may overlap. Part of the problem is the incomplete nature of the references, but it looks like we don't necessarily have those exact documents. There probably are documents of interest in the EPA file.

Let me know if you want to wait and get MDNR's records to see if you need help from EPA. It is probably best to submit a FOIA to EPA, because of the time it is taking to find exactly what you need. If you want to initiate an EPA FOIA, I may be able to send your request directly to our EPA FOIA office rather than having you submit through the online system.

In the meantime, I can probably send you an index of the EPA file, though the titles/descriptions may not reveal the total nature of each document.

Ms. Bernard-Drakey:

Thanks again for your prompt return of my phone call and in advance for whatever assistance you can provide. Know you are busy!

We are looking to recover any of the attached list of historical documents and reports related to the former Chevron Chemical Co. ground water and soil contamination at the above Site which may have been superfund. I've marked with arrows those which are specific to USEPA participation but any of what is listed for which you can provide copies will be great.
We have also filed an FOIA request with the MODNR.

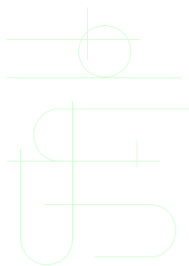

Looking forward to your response and direction.
